EXPERIENCE

Machine Learning Intern - EI Systems

May – July

- Performed data preprocessing including cleaning, transformation, and feature engineering.
- For real-world datasets and applied a dataset from kaggle.
- Built and experimented with various **classification models** to improve prediction accuracy.
- Evaluated model performance using metrics such as accuracy and F1-score, gaining practical experience with **Python** and **Scikit-learn**.

Full Stack Developer Intern

Feb – June

- Designed and developed responsive web applications using the **MERN Stack**.
- Implemented secure user authentication, CRUD operations, and optimized frontend performance.
- The frontend performance is mainly done by using **Redux** and **RESTful APIs**.
- Collaborated on both end to end modules to ensure seamless integration and maintainable architecture.

PROJECTS
